

DUCT REPAIR KIT 4A (095090)

One End of the Duct to be repaired.

Duct Liners.

Provide Duct Liners until the Split Collar insert fits snugly into the Duct.

Split Collar insert. Together with the Duct Liner(s) as required, this converts the Duct End into a Spigot to accept Duct 57 split.

Duct 57 Split. (095087) Tongued and Grooved Duct sections clamped together with Straps Cable fixing 10A, using Tensioner 8A(127234)

The combination of a Split Collar insert and up to three Duct Liners provides compatibility for Duct Bore diameters from 98mm to 105mm inclusive in 1mm intervals. Note that the two Spigot Ends of the assembled Split Collar insert are NOT the same, being 98mm (Small) and 99mm (Large) Diameter respectively. Either Spigot will accept Duct 57 split.
